

IIR CONFERENCE PAPER INSTRUCTIONS FOR AUTHORS

Kočová Romana

ICCEX s.r.o., Cryogenics 2017 Conference Management,
Notečská 16, 181 00 Prague, Czech Republic, romana@icceex.cz

BASIC MANDATORY RULES

The conference paper template consists of a Word file with pre-created paragraph styles for your convenience. **Papers prepared in contrary to this template cannot be accepted for a review and will be sent back for reworking.** Please refer to the guidelines for authors on the preparation of manuscripts.

1. The manuscript should be submitted on-line using the official conference website in Microsoft Word format (.doc/.docx) and Adobe Acrobat Reader format (.pdf) together.
2. Each manuscript has to be accompanied by the **Copyright Transfer Form**. Please download this form on the website. (Full Paper & Proceedings → Copyright Transfer Policy). Don't send this form to the IIR, ICCEX Conference Office will send all documents together to the IIR authority. Submit it on-line as well.
3. **Download and save the NEW IIR TEMPLATE. Don't use the template you have downloaded from the website before the abstract preparation 1-2 months ago.**
4. Give the files new names in the following format: paper ID, presenting author's family name (333_kocova.docx / 333_kocova.pdf / 333_kocova_copyright.pdf).
5. In the conference papers template are indicated in **RED** the styles that should be used. For instance: for the abstract, the style that should be pressed are: „IIR 06. Abstract Title” and “IIR 07. Abstract Main Text”. Please keep only the precreated styles. Press simultaneously: Alt + Control + Shift + S to visualise the Styles table.
6. **DO NOT include page numbers!**
7. Add the number of your paper, it is identical with your abstract number and is available on the website. There is necessary to complete a **DOI number** in the template, you should add only the last digits (ID number).
8. The entire manuscript (i.e. text, figures, tables, references and abstracts) **should not exceed six (6) pages.**
9. Remove all blank lines between paragraphs in the main text between headings (if necessary). The pre-defined paragraph styles include all necessary blank spaces.
10. Occasionally, Microsoft Word may generate larger-than-necessary .pdf files when images inserted into the document are manipulated in Microsoft Word. To minimize this issue, use an image editing tool to resize the images to the appropriate printing resolution (usually 300 dpi), and then insert the image into Microsoft Word using Insert | Picture | From File. Reduce the size / pixel resolution of images in the manuscript. The maximum size should not exceed 2 MB.
11. Don't use or delete all hyperlinks from the whole manuscript, don't use cross-references or footnotes.
12. Turn off the “track changes” function.
